

Rights Respecting School Award

12.7.2019

Article Focuses:

This week, our steering group were joined by VIPS at Kings Hill, who brought their TED Team across to Leybourne Chase to discuss our work towards becoming a gold Rights Respecting school. The children explored a range of topics, including campaigning that the school has carried out both locally and globally and how as a school we foster and encourage pupil voice.

Following this, the steering group took our visitors for a tour of the school. The children shared some of the work that as a school we have taken part in this year, including:

- Sustainable development goals art day
- Our work towards the OutRight campaign
- Our steering group bulletin board and the pupil voice post box
- Our class assembly board, supporting different charities throughout the year
- Our displays on the United Nations and the ABCDE of rights
- Class charters and in classroom displays
- Cultural day
- Anti-bullying week and safer internet day
- Our school charter
- Playground rules and rotas generated by the steering group

To end the session, the children fed back on how we can support each other in the future and as a steering group we are planning to go and support Kings Hill in developing a playground charter in September.
