

Wednesday afternoon work.

You need to spend two hours doing the following things:

Charanga
Accelerated Reader
MathsWhizz
Hit the button multiplications
Typing club.

Please do them in that order.

1. On the Charanga website (<https://charanga.com/scheme>) find the year 6 scheme of work and do the Third lesson of the module entitled *Happy*.

2. Read your book and do any quizzes for books you have already read.

3. Mathswizz, remember the priority is the progressions. You must do the work which contributes to progressions. Simply stacking up hundreds of minutes is no good. You must be making progressions to give us any chance of beating Year 4.

4. Hit the button times tables. Do the divisions. (<https://www.topmarks.co.uk/maths-games/hit-the-button>) you already work quite hard on multiplications. Most of you hit 60/60 in two minutes week after week. Make sure you are as slick with your quick recall of the division facts.

5. Type typing club into Google or visit this website (<https://www.typingclub.com>). Undertake the second of the typing lessons.

You must put in two hour's work. These tasks are written in order of priority. Do them in the order I have written.

Have a jolly afternoon.
